Belle's Plate – Meal Check

A practical guide for everyday, balanced meals – without bans, with clarity.

Name _____ Date _____ Day of the week _____

What this is about

Focus: all components per meal

Give the body the minimum to achieve the maximum: plan and eat meals so the body gets what it needs – this makes many things easier and bans often become unnecessary. Belle's Plate is your "at a glance" guide.

How to use Belle's Plate (practically)

- Place Belle's Plate next to you (printed or on your phone).
- At each meal, check: which areas am I covering today?
- Briefly note what's missing – no stress, just as a clue.
- When you're more practiced: choose foods in advance so that all areas are covered.
- It doesn't have to be 100%. The goal: more clarity, more calm, more enjoyment.

Plate Check ✅

Vital nutrients	☐	Fruit & vegetables (in the evening: vegetables, preferably cooked / no raw vegetables)
Building blocks	☐	Protein – plant-based (e.g., legumes, tofu)
Building blocks	☐	Protein – animal-based (e.g., eggs, fish, meat, dairy)
Building blocks	☐	MUFAs (monounsaturated fats): avocado, nuts, olive oil
Fuel	☐	Carbohydrates (e.g., potatoes, rice, bread, oats)
Fuel	☐	Fats (e.g., butter, cheese, oils depending on the plate)
Bitters	☐	e.g., arugula, chicory, endive, herbs, grapefruit

Note: If you want to reduce your weight, pay attention to minimizing the fuel.

Reflection ⏳ 2 min

💭 Take two minutes

- What felt surprisingly easy today?
- Where did Belle's Plate help me see more clearly right away?
- What was hardest to add – and why?
- Which 1 small thing do I want to make easier next time?

⭐ Mini reminder

You don't have to be perfect. Every tick is a clue – and every clue makes nutrition more understandable and calmer.
